**Shipping Options**

Orders for 2021 reference guides including a combination of CPT® and ICD-10 items will be provided the option ship items together or ship items separately (at an additional fee). See detailed explanation of your options below.

Consolidated Shipment - Your orders will be consolidated into the fewest number of shipments possible. You will receive your order once all items are available. There will only be one shipment charge. Please be aware that CPT® products will not be available until mid-December. This can potentially delay shipment of ICD-10 products. Orders received without a selection will be consolidated into one shipment.

Non-consolidated shipment - Your items ship as they become available, beginning with those already in stock. You should choose this option if your order includes both ICD-10 & CPT® products and you want to receive ICD-10 products on or before Oct 1.
